

KAS[®]
KEYLESS ACCESS SECURITY

Enterprise Performance.
Robust Design.
Slimline Accommodation Lock.

KAS Platinum Plus

Wi-Fi Lock and KASAccess Cloud Software

Platinum Plus

The Platinum Plus delivers enterprise grade access control in a sleek, robust design, purpose built for modern accommodation.

With in built Wi-Fi connectivity, the Platinum plus connects directly to the buildings existing Wi-Fi network, eliminating the need for traditional communication gateways.

Supporting PIN code, RFID card or Fob, mobile unlock and remote unlock via KASAccess. It provides a complete, connected access solution.

Its slimline profile and versatile design make it ideal for both new build and retrofit installations, delivering smart access with unnecessary infrastructure.

Robust where it matters.
Slimline by Design.
Connected for the Future.

KAS combines Australian designed smart lock hardware, ultra efficient technology and intelligent cloud software to deliver keyless access without the complexity.

Our in-house engineering and technology teams design and develop the complete KAS ecosystem, from the lock and electronics through to KASAccess, our cloud based management platform.

By harnessing the ubiquity of Wi-Fi and our highly efficient circuit and software design, KAS locks deliver multi year battery life from a single set of AA batteries, while remaining connected via KASAccess for day to day management, remote access and comprehensive event records.

- » **No traditional gateways.**
- » **No unnecessary infrastructure.**
- » **No excessive installation costs.**

Just smart, scalable, reliable and cost effective access control - designed, developed and supported in Australia.

Commercial by Design. Enterprise by Nature.

A smarter approach to access control, with less infrastructure to purchase, install and maintain

KAS Core Strengths

- 01 Australian designed and developed**
In house design and development of our locks, electronics and software.
- 02 Wi-Fi Connected**
Our latest technology connects directly via Wi-Fi, eliminating the need for traditional communication gateways.
- 03 Exceptional Battery* Life**
Ultra efficient hardware and software engineering delivers multi year battery performance from standard AA batteries.
- 04 In-house Technology Team**
Our technical expertise remains within KAS, giving us complete control over deployment, support and innovation.
- 05 KASAccess Cloud Management**
Our purpose built cloud platform is arguably the most cost effective enterprise grade lock management system on the market. Integrating with all leading property management systems (PMS), allowing remote access, monitoring and detailed event records.

*In a controlled test environment.

Why Platinum Plus?

Direct Wi-Fi Connectivity

Connect your locks through building Wi-Fi or dedicated wireless access points, reducing the need for traditional gateway infrastructure.

Cloud Based Management

Manage users, access permissions, schedules and events from anywhere through KASAccess.

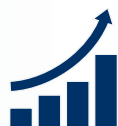

Multiple Access Methods

Supports RFID cards and Fobs, PIN access, mobile unlocking and remote unlocking available through KASAccess.

Real Time Visibility

Monitor access activity and lock status while keeping a clear audit trail of who accessed what and when.

Designed for Scale

From individual properties to large multi site developments, KAS provides a connected access solution that can grow with your requirements.

Built for Modern Accommodation

Purpose built for hotels, apartments, student accommodation (PBSA), retirement living.

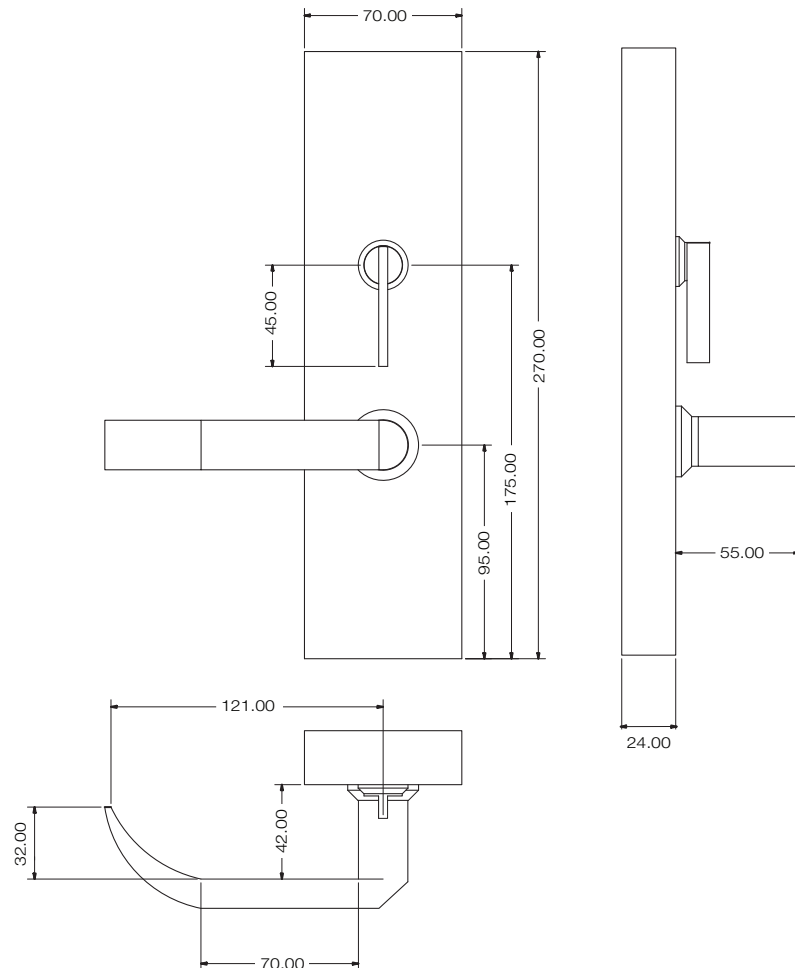

The KAS Difference

- » Australian designed and developed by experienced technology experts with in house technical support
- » Enterprise grade access control without unnecessary complexity
- » Cloud based management in one complete KAS solution

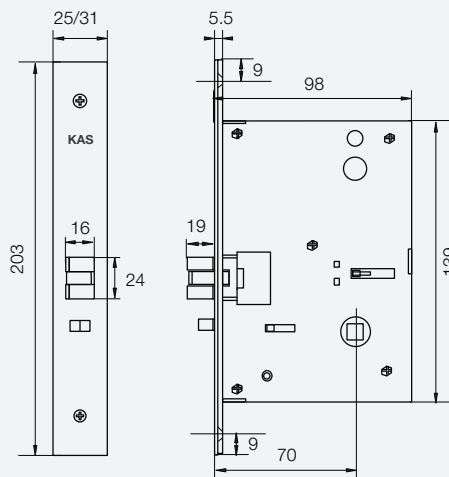

KAS Platinum Plus

with DDA Compliant Handle and Snib

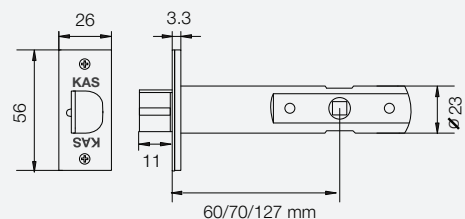

Product Dimensions

ML-Mortise Latch

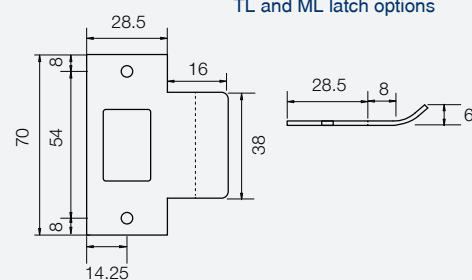

TL-Tubular Latch

Strike Plate

Supplied for both TL and ML latch options

Specifications

Hardware	Body: 304 Stainless steel Reader: High quality plastic
Finish and colour	Brushed stainless and matt black
Keypad	Illuminated 12 keys
Latch type	Compatible with KAS Mortise and tubular latches
Storage	
Card Key	5000
Card configuration	Mifare classic and desfire
Pin code	5000
Mechanical key override	2 Unique mechanical keys (supplied per lock)
Mobile Unlock	Yes
App Specification	
Platform	iPhone and Android based smart phone and browser
Language	English
Device management	Add / delete / modify devise, information checking and notification.
Functions	Key sharing, free passage mode, remote unlock, time zoned, mobile unlock, block and unblock, master card, staff card, construction card (opt) and audit trail
Fire Rating	
	Fire rated to AS standards (up to 2 hrs)
Operating Environment	
Temperature	-20 to +55 Degrees celsius
Humidity %	20% - 90%

Lock Features and Functions	
Wi-Fi connectivity	Yes
Power input	3 x AA Alkaline batteries
Low battery Alarm	Yes
Wrong pincode lockout alarm	Yes
Free passage mode	Yes
One time password	Yes
Open door warning	Yes
Door thickness	34 - 50mm
DDA compliant handle and snib	Yes
Integrated door position Sensor	Yes
Battery life	12+ Months (regular use)
Dimensions	
External body	70 x 271 x 30mm (W x H x D)
Internal body	70 x 271 x 23mm (W x H x D)
Colour Options	
Matt Black	
Brushed Stainless Steel	
	
Finishes: Matt Black	Finishes: Brushed Stainless Steel

PMS Integrations

Seamlessly integrates with leading property management systems to simplify access control and streamline day-to-day building operations.

**With many more being
added everyday!**

If you need an integration that is not listed,
please give our sales team a call.

Step into the future of access control.

From flexible access and reduced cabling to smarter, more connected security solutions, the future is about putting greater control in the hands of building owners and facility managers.

KAS Platinum Plus.
Built for today. Ready for tomorrow.
